Document 01

Club Rules and Requirements

Revision	Date	Status	Prepared by	Checked by
P01	2027-04-01	Issued for Practice	Club Team	Club Manager

This document is part of a fictional club pack. Read it with the other two documents and all issued addenda.

This is a simple reading and RAG exercise, not real animal-care advice. The club, people, rules and amounts are made up.

1. Introduction

Happy Paws is a small daytime club for dogs and cats. The Club Team must prepare the rooms and provide the items in this pack. Dogs use Dog Room D-01. Cats use Cat Room C-01.

1.1 Pack documents

No.	Document	Revision
01	Club Rules and Requirements	P01
02	Rooms and Equipment Specification	P01
03	Addenda and Query Responses	P02 (cumulative)

1.2 Definitions

Term	Meaning
Must	A rule that has to be followed.
Should	A preference, not a strict rule.
May	Something that is allowed but not required.
Dog Room / Puppy Room	Two names for the same room, D-01.
Cat Room / Kitten Room	Two names for the same room, C-01.
Club Team	The people who set up and run the club.
Owner	The person who brings and collects a pet.

2. Which document wins?

If statements disagree, use this order: (1) numbered addenda in Document 03, with the later addendum winning; (2) Document 01; (3) Document 02. In the same document, a written rule wins over a table if they disagree. Still report the disagreement and show which statement wins.

Query responses in Document 03 Part C are information only. They do not change a rule unless a numbered addendum adopts the change. A newer query response does not win just because it is newer.

4. Pet and owner rules

4.1 Dogs

At most 6 dogs may be in Dog Room D-01 at one time. Each dog must stay in D-01 during indoor play. A dog must have a lead attached when it moves through the entrance.

4.2 Cats

At most 4 cats may be in Cat Room C-01 at one time. Each cat must stay in C-01 during indoor play. A cat must arrive and leave in a closed carrier.

4.3 Collection

Owners must collect all pets by 17:00. The club has no overnight service.

5. Rooms and safety

5.1 Gates

Every indoor pet gate must be exactly 120 cm high. This includes gate G-D01 at Dog Room D-01 and gate G-C01 at Cat Room C-01. Keep both gates closed during play.

5.2 Floors and beds

Both pet rooms must have washable floors. Each dog must have one bed and each cat must have one bed. Dog beds should be blue; other colours are allowed.

5.3 Water bowls

Dog Room D-01 must have exactly 3 water bowls, each with a capacity of 2 litres. Cat Room C-01 must have exactly 2 water bowls, each with a capacity of 500 ml. These are bowl sizes, not daily drinking targets.

6. Who supplies the items?

The Club Team must supply all beds, water bowls and cat scratching posts. Owners supply leads and carriers. The Club Team must supply exactly 2 scratching posts for Cat Room C-01.

7. Cleaning

The Club Team must clean both pet rooms exactly twice each day: once before opening and once after closing. The first-aid box FA-01 must be checked before opening each day.
