Dogs and Cats Club

Pack reference HPC-2027-01

Document 02

Rooms and Equipment Specification

Revision	Date	Status	Prepared by	Checked by
P01	2027-04-01	Issued for Practice	Club Team	Club Manager

This document is part of a fictional club pack. Read it with the other two documents and all issued addenda.

This is a simple reading and RAG exercise, not real animal-care advice. The club, people, rules and amounts are made up.

1. General

1.1 Scope

This document gives room details, equipment lists and the setup plan. Read it with Document 01 and Document 03. Use the document order in Document 01 Section 2 if statements disagree.

1.2 Room names

Puppy Room means Dog Room D-01. Kitten Room means Cat Room C-01. These names do not create extra rooms or different age groups.

2. Room specification

2.1 Dog Room D-01

Dog Room D-01 must hold at most 8 dogs at one time. Provide a washable floor, 6 beds and water bowls as listed in Section 4.1. The dog beds must be washable. Their colour may be green.

2.2 Cat Room C-01

Cat Room C-01 must hold at most 4 cats at one time. Provide a washable floor, 4 beds and water bowls as listed in Section 4.1. Owners must supply the 2 scratching posts for this room; the Club Team must not supply them.

3. Gates

3.1 Written gate rule

Both indoor pet gates must be exactly 120 cm high. Measure vertically from the floor to the top of the gate. Keep each gate closed during play.

3.2 Gate schedule

Gate tag	Location	Height
G-D01	Dog Room D-01 entrance	120 cm
G-C01	Cat Room C-01 entrance	90 cm

4. Equipment schedules

4.1 Beds and water bowls

The values below are the required counts and bowl capacities, not examples or minimums. Bowl capacity is the amount one bowl can hold.

Tag	Room	Item	Count	Capacity each
BD-D	D-01	Washable bed	6	-
BW-D	D-01	Water bowl	3	2 ml
BD-C	C-01	Washable bed	4	-
BW-C	C-01	Water bowl	2	0.5 litres

4.2 Other equipment

Tag	Item	Count	Supplier
SP-C	Cat scratching post in C-01	2	Owners
FA-01	First-aid box at reception	1	Club Team

The first-aid box FA-01 must be ready before the club opens. Store it at reception, away from the pet rooms.

5. Daily operation

5.1 Cleaning

The Club Team must clean both pet rooms exactly once each day, after closing. No before-opening room clean is included.

5.2 Opening and collection

The club opens at 09:00 and closes at 17:00. Owners must collect all pets by 17:00. Overnight stays are not included.

6. Setup programme

Start setup on 1 May 2027. Carry out every task below in order, one after another, with no gaps and no overlap. A day means a full 24-hour period. This is the proposed setup plan; it does not change the deadline in Document 01 Section 3.1.

Order	Task	Duration
1	Clean the empty rooms	5 days
2	Fit gates and put in beds and bowls	6 days
3	Check safety and hand over	5 days
Total	All tasks	16 days

The proposed programme finishes at the start of 17 May 2027, 16 days after the start of 1 May 2027.

7. Setup checklist

The table below is the complete setup checklist issued with this specification. Each required safety item must have its own row, as required by Document 01 Section 9.

Item	Check	Signed
D-01 floor	Washable and clean	_____
C-01 floor	Washable and clean	_____
G-D01	Height checked; gate closes	_____
G-C01	Height checked; gate closes	_____
BD-D and BD-C	All beds in place	_____
BW-D and BW-C	All bowls in place	_____
SP-C	2 scratching posts in C-01	_____

8. Handover

Give the Club Manager the signed setup checklist and a list of supplied items. Show the Club Manager how both gates close. Handover does not change the setup deadline.

9. Care of equipment

Wash beds and bowls when needed. Replace broken equipment before it is used again. Keep owner leads and carriers with the correct pet.
