Document 01

Instructions to Tenderers

Revision	Date	Status	Prepared by	Checked by
P01	2026-10-03	Issued for Tender	Fjordview Kommune Project Team	Nordvik Rådgivning AS

This document forms part of the tender documents for the above project. It is issued for tendering purposes only and must not be used for construction.

Note: this is a synthetic example tender pack prepared for a technical interview exercise. The project, parties and figures are fictional.

1. Introduction

Fjordview Kommune (the Employer) invites tenders for the design completion and construction of the Fjordview Community Centre, a new two-storey community building comprising a main hall, library, cafe, music room, multi-purpose rooms, offices, a commercial kitchen and associated external works at Fjordview, Vestland.

These Instructions to Tenderers set out the procedure for the tender, the documents issued, the basis on which tenders will be evaluated and the key commercial terms of the proposed Contract. They do not form part of the Contract except where expressly stated.

Tenderers must read the complete tender pack. Where a Tenderer identifies an ambiguity, discrepancy or omission between any of the tender documents, the Tenderer shall raise a tender query in accordance with Section 8. Failure to do so shall not entitle the Tenderer to any adjustment after award.

1.1 Tender documents

The tender pack comprises the following documents, all at revision P01 unless an addendum states otherwise:

No.	Document	Pages (approx.)
01	Instructions to Tenderers (this document)	10
02	Particular Conditions of Contract	10
03	Employer's Requirements	10
04	Architectural Specification	10
05	Mechanical, Electrical and Public Health (MEP) Specification	10
06	Drawing Register, Drawing Notes and Tender Programme	10
07	Addenda and Tender Query Responses (issued progressively)	varies

1.2 Definitions

In the tender documents the following terms have the meanings given below. Terms defined in the Particular Conditions of Contract have the same meaning in these Instructions.

Term	Meaning
Employer	Fjordview Kommune, the party inviting tenders and the client under the Contract.
Employer's Representative	Nordvik Rådgivning AS, appointed to administer the tender and the Contract.
Tenderer	A party submitting a tender. On award the successful Tenderer becomes the Contractor and the terms Tenderer and Contractor refer to the same legal entity.
Contractor	The party appointed to carry out the Works under the Contract.
Supplier	Any party supplying goods or equipment to the Contractor. A Supplier is not a party to the Contract.
Works	The whole of the works described in the Employer's Requirements, Specifications and Drawings.
Tender Pack	The documents listed in Section 1.1 together with any addenda issued under Section 8.
Contract Period	The period from the Date of Commencement to the Date for Completion stated in the Contract.

1.3 Level and room naming convention

All tender documents use the following level naming. The terms in each row are equivalent and may be used interchangeably across documents.

Level code	Also referred to as	Finished floor level
L00	Ground Floor, Level 0	+0.000
L01	First Floor, Level 1, Upper Floor	+4.200
RF	Roof, Roof Level, Plant Level	+8.700

The building has two occupied storeys (L00 and L01) and a roof level. There is no Level 2. Rooms are identified by a room number of the form Lxx-nnn where Lxx is the level code (e.g. L01-104 Library).

2. Project description

The site is a former municipal depot of approximately 6,800 m2 at Havnegata 12, Fjordview. The site is level, with existing services in Havnegata. Ground investigation reports are available on request and are provided for information only.

The building has a gross internal floor area of approximately 4,200 m2 over two storeys, with a double-height main hall at ground floor. The structure is a steel frame with precast concrete floors and a glulam roof over the main hall. External walls are a rainscreen system on a timber frame.

External works comprise a surface car park, cycle parking, hard and soft landscaping, a service yard to the kitchen, and connections to public utilities.

The Employer has obtained planning permission (ref. FK-2025-0412). Conditions attached to the permission are included in the Employer's Requirements and are to be discharged by the Contractor where so stated.

2.1 Summary of accommodation

Area	Level	Approx. net area (m2)
Main Hall (double height)	L00	520
Entrance foyer and reception	L00	180
Cafe and servery	L00	140
Commercial kitchen and stores	L00	160
Multi-purpose rooms 1-3	L00	240
Changing rooms, WCs and accessible facilities	L00	150
Library and reading room	L01	420
Music room and practice rooms	L01	160
Offices and meeting rooms	L01	280
Youth club	L01	190
Plant room	RF	110

3. Tender procedure and key dates

The tender is a single-stage, two-envelope procedure. Envelope A contains the technical submission and Envelope B the priced submission. Envelope B will not be opened until the technical evaluation is complete.

Tenders shall be submitted electronically via the Employer's procurement portal. Late tenders will not be considered. The Employer is not bound to accept the lowest or any tender.

Event	Date
Issue of tender pack	3 October 2026
Site visit (mandatory)	15 October 2026, 10:00
Last date for tender queries	28 October 2026
Tender return date and time	7 November 2026, 12:00 CET
Tender validity period	90 days from tender return date
Anticipated award	15 January 2027
Anticipated Date of Commencement	1 March 2027
Anticipated Date for Completion	1 May 2028

The dates above are indicative. The Employer may vary them by addendum.

4. The proposed Contract

4.1 Form of contract

The Contract will be based on NS 8407:2011 (General conditions of contract for design and build contracts) as amended by the Particular Conditions of Contract (Document 02). Where these Instructions summarise commercial terms, the Particular Conditions of Contract prevail.

4.2 Contract period

The Contract Period is 14 months from the Date of Commencement. The Tenderer's programme submitted with the tender shall demonstrate completion of the Works within this period, including all commissioning, testing and handover activities.

Sectional completion is not required. Partial possession of the car park may be requested by the Employer and will be agreed with the Contractor without adjustment to the Contract Sum.

4.3 Key commercial terms (summary)

The following is a summary for the convenience of Tenderers. Refer to Document 02 for the full terms.

Item	Summary
Contract Sum	Fixed lump sum, NOK, excluding VAT
Contract Period	14 months
Liquidated damages for delay	NOK 35,000 per week or part thereof, capped at 10% of the Contract Sum
Defects liability period	12 months from the Date of Completion
Retention	5% of each interim payment, released 50% at Completion and 50% at the end of the defects period
Public liability insurance	Minimum NOK 100 million per occurrence
Contractor's all risks insurance	Full reinstatement value of the Works plus 15%

Item	Summary
Performance security	10% of the Contract Sum, on-demand bank guarantee
Payment	Monthly interim payments, 30 days from certified invoice

5. Order of precedence of documents

In the event of any conflict, ambiguity or inconsistency between the tender documents, and subsequently the Contract documents, the documents shall be read in the following order of precedence, the earlier prevailing over the later:

Rank	Document
1	Addenda issued under Section 8, the later addendum prevailing over the earlier
2	Particular Conditions of Contract (Document 02)
3	Employer's Requirements (Document 03)
4	Specifications (Documents 04 and 05)
5	Drawings and drawing notes (Document 06)
6	Schedules contained within any of the above, where they conflict with the text of the same document
7	These Instructions to Tenderers

Tender query responses (Document 07, Part C) are issued for information. They do not form part of the Contract unless their content is incorporated by an addendum. Where a tender query response conflicts with a tender document and no addendum has been issued, the tender document applies and Tenderers should raise the matter as a further query.

Figured dimensions on drawings take precedence over scaled dimensions. Where the Specifications call for a higher standard than the Drawings, the higher standard applies unless the Employer's Representative instructs otherwise in writing.

6. Evaluation of tenders

Tenders will be evaluated on the basis of the most economically advantageous tender using the weightings below. Tenderers must achieve a minimum technical score of 60% to have their priced submission opened.

Criterion	Weighting	Basis of assessment
Price	60%	Tendered Contract Sum, adjusted for arithmetical errors
Programme and methodology	15%	Robustness of programme, logic links, resourcing, site logistics
Relevant experience	10%	At least three comparable public buildings completed in the last 5 years
Key personnel	10%	Project manager and site manager with minimum 12 months' continuous experience in the proposed role on comparable projects
Environmental and social value	5%	Carbon reduction measures, local employment, apprenticeships

Arithmetical errors in the priced submission will be corrected in favour of the Employer and the Tenderer will be asked to confirm the corrected total. If the Tenderer declines, the tender will be rejected.

The Employer reserves the right to clarify any aspect of a tender in writing. Clarifications shall not be used to change the substance of a tender.

7. Submission requirements

Envelope A (technical) shall contain:

(a) A tender programme in Gantt format, consistent with the Contract Period, showing design development, procurement, construction, commissioning and handover, with critical path identified.

(b) A method statement of not more than 10 pages describing site establishment, sequencing, temporary works, and measures to protect the adjacent school and residential properties.

(c) CVs of the proposed key personnel.

(d) Three reference projects with client contact details.

(e) A statement of compliance with the Employer's Requirements, listing any proposed departures. Departures not listed will be deemed not to have been proposed.

(f) A design responsibility matrix identifying design elements the Tenderer proposes to subcontract.

Envelope B (priced) shall contain:

(g) The Form of Tender, signed.

(h) The Pricing Schedule in the format provided, fully completed. Items left unpriced will be deemed to be included elsewhere.

(i) A cash-flow forecast by month.

(j) Rates for the provisional items and dayworks.

Tenders shall be in Norwegian or English. Submissions in both languages are acceptable; in the event of a discrepancy the Norwegian version prevails.

8. Tender queries and addenda

Queries shall be submitted through the procurement portal by the date in Section 3. Queries will be answered in writing and the question (anonymised) and answer circulated to all Tenderers in Document 07, Part C. Verbal responses given at the site visit or otherwise are not binding.

Where a query results in a change to the tender documents, the Employer will issue a numbered addendum in Document 07, Parts A and B. Addenda form part of the tender documents and take precedence as set out in Section 5. Tenderers shall acknowledge receipt of each addendum on the Form of Tender.

Tenderers are reminded that the tender documents have been prepared by several parties and that the onus is on the Tenderer to identify inconsistencies before the last date for queries.

9. Site visit

A mandatory site visit will take place on the date in Section 3. Tenderers shall attend with a maximum of three representatives. Personal protective equipment is required. Attendance will be recorded; tenders from Tenderers who did not attend will be rejected.

Tenderers may not undertake intrusive investigations on the site. Non-intrusive surveys may be requested in writing and will be considered.

10. Confidentiality and conduct

The tender documents are confidential and are issued solely for the purpose of preparing a tender. Tenderers shall not disclose them to third parties other than proposed subcontractors and suppliers, who shall be bound by the same obligation.

Canvassing of any officer or member of the Employer will result in disqualification. Tenderers shall declare any conflict of interest on the Form of Tender.

11. Pricing Schedule structure

The Pricing Schedule shall be completed in the sections below. Tenderers shall not amend the structure. Each section total shall be carried to the summary. Preliminaries shall be priced as a lump sum with a time-related and a fixed component separately identified.

Section	Description	Pricing basis
A	Preliminaries, site establishment and management	Lump sum (fixed / time-related)
B	Design development and statutory approvals	Lump sum
C	Demolition, site clearance and remediation	Lump sum
D	Substructure, foundations and ground floor slab	Lump sum
E	Steel frame and precast floors	Lump sum
F	Glulam roof structure to Main Hall	Lump sum
G	Roof coverings, PV support structure and rooflights	Lump sum
H	External walls, rainscreen and windows	Lump sum
J	Internal walls, partitions and doors	Lump sum
K	Floor, wall and ceiling finishes	Lump sum
L	Fixed furniture, fittings and signage	Lump sum
M	Mechanical services (heating, ventilation, cooling)	Lump sum
N	Public health services (water, drainage, gas)	Lump sum
P	Electrical services (power, lighting, fire alarm, data)	Lump sum
Q	Lifts and vertical transportation	Lump sum
R	Commercial kitchen equipment (supply and install)	Lump sum
S	External works, car park and landscaping	Lump sum
T	Utility connections	Lump sum
U	Testing, commissioning and handover	Lump sum
V	Provisional sums (Section 12)	As listed
W	Dayworks	Rates only
X	Contractor's risk, overheads and profit	Lump sum / percentage

12. Provisional sums

The following provisional sums shall be included in the Contract Sum without adjustment. They will be expended in whole or part on the instruction of the Employer's Representative, or omitted.

Ref	Item	Amount (NOK excl. VAT)
PS1	Public art commission in entrance foyer	350,000
PS2	Audio-visual equipment to Main Hall	1,200,000
PS3	Loose furniture to Library	900,000
PS4	Unforeseen ground conditions	750,000
PS5	Statutory authority charges	400,000
PS6	Archaeological watching brief	150,000

13. Health, safety and environment

The Contractor will be the principal contractor under the Byggherreforskriften. The Employer has appointed Nordvik Rådgivning AS as HSE coordinator for the design phase. The Contractor shall appoint an HSE coordinator for the construction phase.

The site adjoins Fjordview Primary School to the north. Deliveries shall not take place between 08:00 and 09:00 or between 14:30 and 15:30 on school days. Noise shall not exceed 60 dB(A) LAeq(1 hour) at the school boundary. The Tenderer's method statement shall describe how these constraints will be met.

The Employer's target is an energy label A and a 30% reduction in embodied carbon relative to the reference building defined in the Employer's Requirements. Tenderers shall state in Envelope A the measures they propose to achieve these targets and any measures that are priced as options.

14. Tenderer's design obligations

The Employer's design is developed to the equivalent of RIBA Stage 3 / MMI 350. The Contractor shall complete the design, coordinate all disciplines, obtain the building permit (rammetillatelse is in place; igangsettingstillatelse is to be obtained by the Contractor) and produce construction information.

The Contractor shall adopt the Employer's design team by novation for architecture and structure. MEP design shall be completed by the Contractor's own consultant. The Contractor is responsible for the coordination of the novated and non-novated design, and for identifying and resolving any conflicts between the tender documents prior to construction.

A design responsibility matrix is included in the Employer's Requirements. Where the matrix allocates an element to the Contractor, the Contractor is responsible for its performance regardless of any indicative information shown on the Drawings.

15. Form of Tender

The Form of Tender is reproduced below for information. The executable version is provided on the portal.

To: Fjordview Kommune. Having examined the Tender Pack including Addenda Nos. _____ we offer to complete the Works in accordance with the Contract for the sum of NOK _____ excluding VAT, within the Contract Period of 14 months from the Date of Commencement. We agree that this tender remains open for acceptance for 90 days from the

tender return date. We confirm attendance at the site visit on 15 October 2026.

Signed: _____ For and on behalf of: _____ Date: _____
